

Wild Edible Mushrooms

Saturday, September 18th, 11 am - 3 pm, \$25

RSVP: sair.foltz@gmail.com

**Hunt Utilities Group Campus (Old Main)
2331 Dancing Wind Rd Sw, Pine River, MN 56474**

This workshop is designed to help people develop the skills and confidence to begin collecting, identifying, and safely eating wild edible mushrooms. Activities will include a photo presentation of edible Midwest mushrooms, practice identification with fresh specimens, a mushroom foray in a nearby forest, and cooking/sampling edible mushrooms. Edibility guidelines, cautions and other pointers will be provided for each "form group" of mushrooms, with emphasis on the most common, delicious, and readily identifiable mushrooms found in the Midwest. Over a hundred species of edible/inedible/poisonous mushrooms will be on display!

Instructors Sarah & Nick Jordan are knowledgeable and enthusiastic collectors, eaters, students, and teachers of edible fungi. They have mushroomed everywhere from the rainforests of Hawaii to the mountains of Pacific Northwest, but are most impressed with the diversity and abundance of mushrooms in the Midwest field, forest, and lawn. *For more information, visit their Edible Mushroom Website: www.mycomagnet.com*

Bring snacks, camera, notebook, mosquito-proof clothing, and mushrooms you are curious about or just want to share.

Recommended field guides: **North American Mushrooms: A Field Guide to Edible and Inedible Fungi** by Orson K. Miller and Hope Miller 2006 *or* **National Audubon Society Field Guide to North American Mushrooms** by Gary H. Lincoff 1981.

Registration at the door, but please RSVP to this email if you know you are coming, so we can plan accordingly. **For more information call 763-389-2581 or email: sair.foltz@gmail.com**

Directions to Hunt Utilities Group campus: Take Hwy 371 N, turn left on County Rd 2 (West), turn right on Dancing Wind Rd (at the wind mill). Old main is strawbale building on left side.
