

Vegetable Planting Calendar for Northern Minnesota

KEY

- Plant seeds in ground (direct sow) * - Frost tolerant
 - Plant seeds indoors (transplants)
 - Transplant seedlings outside
 - Harvest
- Last frost date
 First frost date

Notes:

This calendar is based on a first and last frost date around May 20 and September 20. Dates may be adjusted by finding average frost dates in your area: <https://garden.org/apps/frost-dates/>.

Harvest dates are approximate based on planting on the earliest planting date and extending to latest possible date. Achieving a sustained harvest through this period may depend on planting several successions (planting every two weeks).

Crops	February				March				April				May				June				July				August				September				October			
	1	2	3	4	1	2	3	4	1	2	3	4	1	2	3	4	1	2	3	4	1	2	3	4	1	2	3	4	1	2	3	4	1	2	3	4
